TO THE
QUEEN.

MADAM,

These Volumes contain an Essay towards the *Natural History* of that Part of YOUR MAJESTY'S Dominions, which is particularly honoured by bearing YOUR AUGUST NAME **CAROLINA**, this and Your great Goodness in encouraging all Sorts of Learning, have embolden'd me to implore Your *Royal Protection* and *Favour* to my slender Performance. I hope YOUR MAJESTY will not think a few Minutes disagreeably spent, in casting an Eye on these Leaves; which exhibit no contemptible Scene of the Glorious Works of the Creator, displayed in the New World; and hitherto lain concealed from the View of YOUR MAJESTY as well as of Your *Royal Predecessors*, tho' so long possessed of a Country, inferior to none of YOUR MAJESTY'S *American* Dominions
